Professional Summary

Information Technology undergraduate with hands-on experience building full-stack and backend applications using Python, Django, JavaScript, React, Node.js, and SQL/NoSQL databases. Developed and deployed web applications featuring REST APIs, authentication, role-based access control, database integration, and automated data/resume processing through internship and academic projects.

Technical Skills

Languages	Python, JavaScript, TypeScript, C, C++
Backend	Django, Node.js, Express.js, REST APIs, Mongoose
Frontend	React.js, HTML5, CSS3, Tailwind CSS, Framer Motion
Databases	MySQL, MongoDB
Security	JWT, bcrypt, RBAC, CORS, Helmet
Tools	Git, GitHub, VS Code, Vite

Internship Experience

- Full Stack Web Development with AI Tools Intern - Edunet Foundation | EY** Dec 2025 - Jan 2026
- Developed the **Resume Skill Gap Analyzer & HR Screening Platform** using Django, Python, and MySQL to automate resume screening and candidate skill analysis.
 - Engineered a synonym-aware skill matching engine covering **200+ technical skills across 13 domains and 25+ synonym groups** to reduce false-negative matches.
 - Integrated **PyPDF2** and **python-docx** for automated PDF/DOCX resume extraction and processing.
 - Collaborated using **Git/GitHub** to develop Built HR analytics workflows with **candidate filtering, skill-gap analysis, and PDF reporting**.

Projects

Counselling Centre, AVCOE — *React, TypeScript, Node.js, Express.js, MongoDB, Tailwind CSS, Vite, Vercel* Jan 2026 - Mar 2026

- Developed and deployed a full-stack student counselling platform for AVCOE, supporting student support requests, appointment management, and confidential session records through role-based dashboards.
- Implemented **JWT authentication, RBAC, bcrypt, rate limiting, CORS, and Helmet** to secure student and counselor workflows.
- Built REST APIs with Express.js and MongoDB, using Mongoose schemas and indexed queries for efficient record retrieval.
- Designed a responsive interface with **React, TypeScript, Tailwind CSS, and Framer Motion** and deployed the application on Vercel.

Resume Skill Gap Analyzer & HR Screening Platform - Django, Python, MySQL, PyPDF2, python-docx, HTML, CSS, JavaScript, Bootstrap Dec 2025 – Jan 2026

Developed during Full Stack Web Development Internship

- Built a recruitment platform that parses PDF/DOCX resumes and matches candidate skills against job requirements.
- Developed Candidate and HR portals supporting resume analysis history, job management, candidate filtering, skill-gap recommendations, and PDF/JSON reporting.
- GitHub: <https://github.com/suraj-kanse/Resume-Skill-Gap-Analyzer>

Education

Bachelor of Engineering - Information Technology – CGPA: 7.76/10.0 – Amrutvahini College Of Engineering, Sangamner | SPPU Aug 2023 – Jun 2027

Certifications

- Full Stack Web Development with AI tools** - Edunet Foundation (Feb 2026)
- SQL Certification** - Technorbit Infosystems (Feb 2026)
- AI Skills Passport** - EY and Microsoft (Jan 2026)
- Python Fullstack Developer Virtual Internship** - Eduskills Foundation (Sep 2025)

Leadership & Activities

- SITES Committee Member** - Society of Information Technology Engineering Students
- Pitch Perfect Competition** - E-Cell, Entrepreneurship Cell
- Smart India Hackathon 2024 & 2025** - Participant
- CodeSpark 24-Hour Hackathon** - Participant (Dept of IT, AVCOE)
